Dear Hiring Team at KAPITA,

I am writing to express my interest in the position within the Orange Corners Baghdad project. With over two years of experience in full stack development and hands-on project management, I've successfully led and delivered software solutions from planning to execution in multicultural environments like Germany and Dubai.

My background combines strong technical skills in web development with organizational and communication abilities that are essential for coordinating teams, managing tasks, and supporting business goals. I've worked directly with clients, organized project timelines, and ensured smooth delivery-skills that align closely with the coordination and follow-up responsibilities in this role.

Fluent in Arabic, English, and German, I'm excited about the opportunity to contribute to KAPITA's mission of empowering Iraqi startups and entrepreneurs through innovation and structured support.

Thank you for considering my application.

Best regards,

Zaid Khaled Mohsen
